#### MARKET REPORT

JPMorgan sees SA stocks extending EM outperformance
South African stocks have just closed out their strongest first half in 14
years, and JPMorgan Chase & Co. is among those forecasting further gains
for 2021.

HEADLINE CPI: The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.

CORE CPI: The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.
