MARKET REPORT

Stocks mostly higher as recovery hopes offset virus, Fed	woes
European and Asian stock markets mostly rose Tuesday as hope long-term global outlook offset concern about the fast-spreading I	
variant and expectations that the Federal Reserve will soon begin	
withdrawing its vast financial support.	

Article Source: Fin24

HEADLINE CPI: The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.

CORE CPI: The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.
