MARKET REPORT

China is sending shockwaves through South African markets	
The JSE's All-Share Index has posted its worst quarter since the first three months of 2020 amid concern about an energy crunch weighing on China's economic growth and Beijing's regulatory crackdown on key sectors including technology. China is the biggest buyer of South African raw materials.

HEADLINE CPI: The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.

CORE CPI: The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.
