MARKET REPORT

Investors opt for South African bonds amid war fall-out

African hard-currency sovereign debt, all of it rated junk, is finding buyers as investors look to shield their cash from the fallout of the war in Ukraine. South Africa - rated three steps below investment grade at S&P Global Ratings - is leading the pack. The country's dollar bonds have returned 1.75% this month, compared with the 2.3% average drop for the 74-member Bloomberg Emerging Markets USD Sovereign Index.

HEADLINE CPI: **The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.**

CORE CPI: **The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.**
