MARKET REPORT

Rand steadies as dollar pauses rally, JSE firms

Emerging market stocks extended a six-day selloff on Tuesday as global growth fears stoked by high inflation, tighter US monetary policy and a slowdown in China weighed on shares, while most regional currencies took a breather after a three-day slide.

HEADLINE CPI: The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.

CORE CPI: The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.
