BoE Rate (UK)	3,00%

#### MARKET REPORT

##### Rand rallies, JSE boosted by Richemont rally after results

On Friday morning, the rand was trading at R17.29/\$ - its best level since mid-September. Weaker-than-expected US inflation data, released on Thursday, fuelled expectations that the US interest rates may not rise as high as previously thought. Emerging market currencies also benefited as China moved to ease some quarantine rules for travellers.

**HEADLINE CPI:** The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.

**CORE CPI:** The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.
