MARKET REPORT

Most markets rise as US inflation boosts Asian stocks struggle

There is now growing optimism that the reopening that started last month will fuel a strong rebound this year and help support the global economy as central banks try to avert a recession caused by soaring inflation and interest rate hikes.

HEADLINE CPI: **The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.**

CORE CPI: **The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.**
