INFLATION - Up to January 2025

Name	% Move Y/Y
Core CPI	3,9%
Headline CPI	3,2%

MARKET REPORT

Trump says Canada, Mexico tariffs to take effect, adds new China c

The initial 10% tariff hike on China was expected to have only a limited effect on China's growth in the near term, according to analysis from Chang Shu, Eric Zhu and David Qu of Bloomberg Economics. "But higher, permanent tariffs would bring considerable pain," they wrote in a research report earlier this month. An increase to 60% would slash China's exports to the US by almost 80%, putting 2.3% of GDP at risk in the medium term, they estimated.

HEADLINE CPI: The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.

CORE CPI: The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.
