MARKET REPORT

US slaps 50% tariffs on India, among highest in the world

President Donald Trump imposed a crushing 50% tariff on some Indian goods — the highest in Asia — to punish the country for buying Russian oil, upending a decades-long push by Washington to forge closer ties with New Delhi. The new tariffs took effect at 12:01 a.m. in Washington on Wednesday, doubling the existing 25% duty on Indian exports. Trump has slammed India for buying Russian oil, which he said was funding President Vladimir Putin's war in Ukraine. New Delhi has defended its ties with Russia and has called the US's actions "unfair, unjustified and unreasonable."

HEADLINE CPI: The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.

CORE CPI: The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.
