HEADLINE CPI: The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.

CORE CPI: The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.

Headline CPI	3.0%

MARKET REPORT

'Sufficient' jet fuel in Sasol's drums to keep airlines running

Sasol says it has sufficient fuel inventory to meet supply obligations across all grades of fuel. It is unclear how long current reserves can sustain demand from airlines, but the company says the short-term outlook is stable. "We have implemented measures to source crude from alternative ports not located in the Persian Gulf, and are considering reasonable alternatives, should it become necessary," says Sasol spokesperson Alex Anderson.
