**HEADLINE CPI: The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.**

**CORE CPI: The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.**

**MARKET REPORT**

Warsh confirmed as new head of the Fed

The Senate narrowly confirmed Kevin Warsh as chair of the Federal Reserve, setting up the most controversial leadership transition at the US central bank in decades and a test of its political independence.

The 54-45 vote on Wednesday was the slimmest confirmation margin ever for a head of the central bank, reflecting polarised politics in Congress and Democratic fears that Warsh will bend to President Donald Trump's demands to rapidly lower interest rates.
