MARKET REPORT
Oil slides on Hormuz deal as Brent closes in on losing war gain

Oil fell as an interim US-Iran peace deal went into effect, putting the focus on how quickly transits through the Strait of Hormuz can be ramped up as Persian Gulf producers try to restart shut-in fields.

Brent sank below \$78 a barrel, while West Texas Intermediate was near \$75. President Donald Trump said he had signed the deal, which envisions a rapid reopening of the critical waterway. US oil sanctions must now be lifted immediately, Iranian Foreign Ministry spokesman Esmail Baghaei said.

HEADLINE CPI: The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.

CORE CPI: The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.
