MARKET REPORT

Gold climbs above $4 400 as traders turn focus to US inflation

Gold advanced to a two-month high above $4 400 an ounce ahead of a key US inflation report that could provide fresh clues to the Federal Reserve’s appetite for an interest-rate hike. Bullion rose as much as 1% on Tuesday, after adding 3.6% over the previous two sessions. Technical buying was spurred by the metal’s ascent through the 100-day moving average on Monday, another sign of recovery after the emergence of dip-buyers in recent weeks and greater inflows from gold-backed exchange-traded funds in China.

READ MORE

HEADLINE CPI: **The CPI calculates the cost to purchase a fixed basket of goods as a way of determining how much inflation is occurring in the broad economy. The CPI uses a base year and indexes current year prices based on the base year's values.**

CORE CPI: **The headline figure is not adjusted for seasonality or for the often volatile elements of food and energy prices, which are removed in the Core CPI.**
